NORMAL, ILLINOIS

Illinois is one of the best states in which to buy Polled Shorthorn Cattle and the Illinois Polled Shorthorn Breeders' Association is one of the strongest and most dependable of the state organizations. The many buyers who have attended the annual sales sponsored by this association have learned to regard these as among the best sources of supply for good herd bulls and for dependable, profitable females. From the very beginning of their annual sales program, Illinois Polled Shorthorn breeders have consigned many of their best productions and by so doing they have boosted breed progress in the state. Always these state sales have provided animals that have yielded attractive returns to the buyers . . . and always the prices have been moderate. Again in this sale they have furnished a well rounded offering, calculated to meet the needs of critical buyers as to ages, quality and breeding. These cattle are healthy; they are consigned by reliable breeders, and they will work improvement wherever they go. Study this sale catalog carefully. Note that the best of bloodlines are represented. Now is the time and here is the opportunity to build strength into Polled Shorthorn herds.

HAL LONGLEY, Sale Manager, 16 S. Locust St., Aurora, Ill.

GUARANTEE—

All cattle in this sale are sold under the standard form of guarantee endorsed by the American Shorthorn Breeders' Association.

HEALTH—

All animals are sold subject to a 60-day retest for tuberculosis, or to comply with the laws of the state into which they may be shipped. Animals shall be segregated from the buyer's herd until the retest is made except the herd be a Federal Accredited one. All tests for tuberculosis, either test before sale or retest, shall be made by a Federal or State Veterinarian deputized by the State Veterinarian, who is cooperating with the Federal Veterinarian and qualified to do accredited herd testing. Purchase price to be promptly refunded upon proof of tubercular reaction, except that the purchaser shall agree to accept a substitute. Every animal in this sale has been tested for Bang's Disease within 30 days of the date of the sale. Health certificates will be provided with each lot sold.

PEDIGREES—

Certificates of registry and transfer will be furnished with each lot sold. Shipment will be made as soon as possible after the close of the sale and without trouble to the purchaser, but at the risk of loss or injury after being bid off.

TERMS—

The terms of this sale are cash unless arrangements are made in advance with the consignor from whom you purchase. All settlements must be made with the clerk of the sale immediately at the conclusion of the auction and before the animals are removed. All stock will be at buyer's risk as soon as bid off but the management will assist in loading on cars or trucks in compliance with instructions from purchaser.

The above guarantee and terms constitute a contract between the consignor and buyer of each lot. Neither the Illinois Polled Shorthorn Breeders' Association, the clerk of the sale, nor the individual designated as Sale Manager assumes any liability, legal or otherwise.

Where footnotes appear in this catalog they were furnished by the consignors or written from information supplied by the consignors.

We will not be responsible for any accidents that may occur, but will make every effort to provide for the comfort and safety of our guests.

Polled Shorthorns are the most practical and most profitable cattle for Corn Belt farms today. Packer buyers pay a premium for fat cattle without horns; farmer bull buyers prefer the hornless type; small breeders are buying Polled bulls in order to more easily fill the farmer needs; there is no doubt but that Polled Shorthorns are the "Ultimate Type." The future is bright. Present prices are moderate. Why not buy now? This sale provides a good source of supply.
